FORWARD

Thank you for taking the time to consider,

HERITAGE FUNERAL CENTRE, O'Connor Bros. & Ralph Day Chapels for funeral arrangements.

For family and friends, a funeral service is often one of life's most memorable events. Reputation, service, and facilities should be considered, along with price, to properly "value" the funeral service being considered.

In our view, the single most important consideration to make this a memory to cherish, is outstanding service. Our exceptional staff take great pride in the many tributes we receive from families. Our Client Satisfaction Surveys continually rate our Overall Level of Service as "Excellent".

Our newly renovated facility is the largest and newest in central Toronto and is regularly complimented for its easy accessibility, convenient location, parking, and spaciousness – and it is all on one level!

Heritage has earned the trust of many families who have made our firm their funeral home of choice whenever the need arises.

We are privately owned and operated by Mr. Glen Day and his family, carrying on his family's legacy in funeral service for the fourth generation.

Please visit our website for more information and to read testimonials from the many families we have served.

ADDITIONAL SERVICE OPTIONS

Heritage Funeral Centre offers the following services options:

Additional Body Preparation Services:

It is our policy that human remains be identified whenever possible prior to Minimum Service Options, cremation / hydrolysis, graveside services or in all situations where there is to be a closed casket. The identification may be made by anyone who knew the deceased, including a relative, friend, neighbour, co-worker, or clergy person. While identification of a body is possible with the minimum required preparation or essential care, you may wish to consider opting for basic embalming preparation or clinical care, as it might afford a more peaceful final viewing experience. Embalming is not legally required, but may be recommended to preserve the body between the time of death and final disposition. One of our funeral directors will be able to guide you on recommendations based on the condition of the body and the expected service needs.

Graveside Service:

This is a gathering of family and close friends at the cemetery graveside for a brief religious or non-religious committal service of the casket or urn at the grave.

Visitation:

These are informal gathering of periods that allow family and friends to come and pay their respects and offer comfort to a grieving family. It may create the opportunity to display personal items, mementos or to share a photo tribute to personalize the event and the life lived. Our suggested visitation times are from 4 - 8 pm. Visitation periods may be held as visitation periods on their own, or as part of, and generally prior to a Funeral Service or Memorial Service.

Minimum requirements for a casket:

For Burial: The least expensive wood casket is suitable and is required by most cemeteries' by-laws for interment, in the interest of the health and safety of the workers involved in the interment process. A metal casket may also be used for burial. A growing number of cemeteries in Ontario offer "green" burials which may consist of interment of a body without a casket. Since there is no legal definition for a "green" burial, it varies from one cemetery to another. For more information, please speak with one of our funeral directors, or visit www.greenburialcanada.ca.

For Cremation: A body must be presented to the crematorium in a rigid, leak proof casket that is made of a combustible material, such as wood or cardboard. Caskets containing non-flammable, hazardous material or chlorinated or fiber-reinforced plastic, other than incidental metal, cannot be used for cremation. We offer a selection of inexpensive caskets below that are suitable for cremation.

For Hydrolysis: A casket is not used for hydrolysis (also known as "aquamation". In some instances, a hydrolysable container or shroud may be required. For more information on this alternative method of disposition, please speak with one of our funeral directors, or refer to the [Bereavement Authority of Ontario's Consumer Information Guide](#).

OUTER BURIAL CONTAINERS

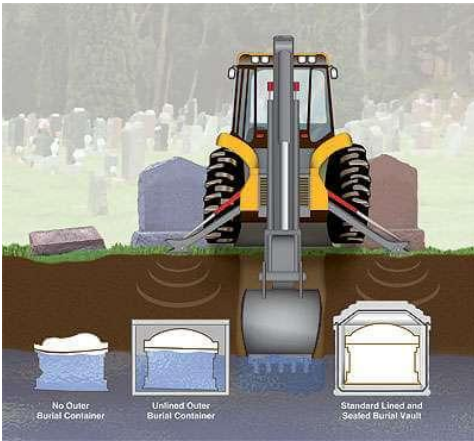

Concrete Vaults & Grave Liners - Supplied by Superior Vault Company

Outer burial containers listed below are for standard adult size caskets. Oversize vaults are available to accommodate plus-size caskets. Price includes local grave set up and lowering device. Some out-of-town cemeteries may have an additional charge for the grave set up and lowering device.

The purchase of a grave liner or a vault is an optional item, unless the Medical Officer of Health has made the use of vaults and grave liners mandatory in the entire cemetery. A cemetery operator may designate a specific area in the cemetery where vaults or grave liners are required; however, the operator must have another area where vaults or grave liners are not required, so that consumers have a choice. A vault or grave liner may be recommended when there are environmental conditions such as poor drainage or aesthetic reasons.

A grave liner is an unlined concrete box with a lid. The base is placed into the grave, the casket is lowered into the base and the lid is then placed on top. A burial vault is constructed of reinforced concrete, which is often painted gold or silver and has an inner liner along with seal to make the burial vault resistant to the entrance of water and grave site substances.

Operating a modern cemetery requires heavy equipment such as backhoes and tractors. A strong durable vault provides greater protection from the weight of the equipment as well as the elements of the earth.

Supplied by: Victoriaville & Co. 

The selection of an urn or urn keepsakes are optional selections. When a body is cremated or hydrolyzed, the remaining cremated / hydrolyzed remains will be presented in a box suitable for interment or scattering as is. Nonetheless, we are pleased to offer the following selections of products in a range of prices and materials to suit your preferences. If the urn is to be placed in a columbarium niche at a cemetery, you must make sure the urn you select will fit. Please speak with one of our funeral directors for assistance.

Some options may be more appropriate than others. For example, scattering is a strong symbolic gesture but leaves no permanent memorial for future generations. Your funeral director can help guide you to preserve the memory of your loved one in a way that is meaningful to both you and your family.

Personalization or engraving of the urn is included with the purchase of any urn selection when an urn is able to be engraved.

PAYMENT, FINANCING & FUNDING

For services at time of death:

Payment in full is due on the signing of this contract ("Due Date"). Any amounts outstanding on that date will bear interest at the rate of 18% per annum, calculated daily and compounded monthly which is equivalent to 19.59% per annum (APR), from the due date until paid in full. There will be a charge of \$25.00 for any non-sufficient funds (NSF) cheque returned by the bank. Any costs of collection shall be the responsibility of the purchaser. Payment plans are also available to meet most budgets. Financing charges apply to payment plans.

For your convenience, payment may be made by: Cash, Cheque, Visa, Mastercard or Interac

Financial assistance for funeral, burial, cremation / hydrolysis services may be available through various governmental agencies, to those who qualify.

Pre-payment in advance of need:

For services that are being arranged pre-need, we offer two funding options when pre-paying services or supplies:

Trust: You pay for the services and supplies at today's price and we place your money in a trust account, where it will accrue interest until the pre-paid contract is fulfilled (when the services and supplies are delivered). Pre-payment can be made by cash, cheque, or credit. Funds are held in the purchaser's name.

Insurance: You may purchase an insurance or annuity policy through us, where the proceeds of the insurance/annuity policy will be used to pay for services or supplies at the time they are delivered. Payment may be made by credit card or cheque for single payments. Time payment plans may be made by credit card or pre-authorized chequing. The policy is held in your name and assigned to the funeral home. Terms and conditions and cancellation policies are set by the Insurance Company.

Guarantee: When paid in full in accordance with payment terms set out in the pre-paid contract, the pre-paid contract is guaranteed. The total payment(s) made plus interest / growth earned will be applied to the future price of the services and supplies. If the total payment(s) plus interest / growth earned are insufficient to cover the total future price of the pre-paid services and supplies, we will absorb the difference as a loss. Any funds in excess of the total future price of the pre-paid services will be returned or applied toward additional services, supplies and disbursements purchased at the time of need, as applicable. Conditions apply. Any changes to the pre-paid contract may result in the prepaid contract being executed with current pricing at the time changes are made.

Additional information about payment, financing and funding options is available upon request.
