# Getting Through Arrangements

We understand how difficult this time may be for you and your family. The death of a spouse, relative or friend can be one of the most stressful events in your life. It is a time when you are dealing with your own emotions, those of others, and the gathering of family and friends.

It is also a time when you will have to make a number of decisions. To help, we have designed an easier way to guide you through the arrangement process as clearly and simply as we can.

Those who have died were individuals—people whose lives and personalities affected those around them in a unique way. We offer a wide range of options that will allow you to honor life in all its individuality and to reflect on the impact it made on others.

# DECISIONS

BURIAL | CREMATION | DONATION

Decisions to be made at the time of someone's death can be complex. A major decision is how to handle the deceased's remains. There are many options that will honor both the wishes of the deceased and those of the family.

## Burial

The body can be buried in the ground, at sea, in a green or eco-friendly manner, or entombed in a crypt.

*or*

## Cremation

The ashes can be divided among family or friends, spread in a location of significance, buried in the ground or inurned in a crypt.

## Donation

It is not unusual for someone who has died to have left behind, as part of their legacy, a request that all or part of their body be donated to medical science or as a life-giving gift. Even if a donation legacy was not left, the individual's family may choose donation on their behalf. Donations may include the entire body, organs, tissue and bones.

The gift of donation does not preclude you from ultimately deciding on the final form of disposition, nor should it affect your ability to gather and commemorate.

While cremation, burial and donation are initial decisions, each has various options available. Some final form of disposition must be decided upon.

## RETENTION

If requested, we will transfer the remains from the local (within 20 miles) place of death to this funeral home in our service vehicle, and then to the local (within 20 miles) place of final disposition in a hearse. These charges may also include, at your option: obtaining information for permits and records; the placement, securing and adjustment (casketing) of the deceased into a container of your choice (see merchandise page); a private identification for less than one hour; and the accompaniment of the deceased to the final place of disposition, graveside service or final committal by one of our licensed staff members.

| | |
|---|---|
| Arrangements to obtain necessary permits and records information | $825 |
| Transfer | $675 |
| Casketing (placement and securing) | $325 |
| Private identification | $325 |
| Hearse | $595 |
| Accompaniment (use of equipment and staff at cemetery or crematory) | $595 |
| The charge for these combined professional services typically will not exceed | $3,340 |

If you wish to assist us in placing the deceased in the casket, dressing the deceased, applying cosmetics, or hairdressing, please inform us when you meet with your funeral director.

*DECISIONS often require us to pay third parties on your behalf that are not included in this price list. Often the timing of the arrangement makes it necessary for us to estimate these advances. Items, individuals and service providers that may require payment in advance, include the cemetery/crematory, death certificates, permits and filing fees. We do not mark up the cost of these cash disbursement items. The actual costs will be reflected on your final bill.*

## CARE

In the event final disposition is delayed or you decide to view the deceased for a period of time, additional services may be provided beyond the Retention selections. Following refrigeration, if you wish to view the deceased, we may perform sanitary care without embalming. We can also dress and cosmetize the deceased for viewing or identification.

| | | |
|---|---|---|
| *Retention services from previous page* | | $3,340 |
| Refrigerate (includes sheltering of remains) | *per day* | $200 |
| Sanitary care | | $400 |
| Dressing | | $215 |
| Cosmetizing | | $215 |
| The charge for these combined professional services typically will not exceed | | $4,370 |

Our firm permits open casket viewing of unembalmed remains; however, cause of death, condition of the remains, autopsy, organ and tissue donation and delays in visitation may modify how we can honor your wishes. Permission for refrigeration, sanitary care, or the use of alternative treatments will assist us in honoring this request. After the deceased is in our care, we will be able to better advise you on fulfilling your request.

## PREPARATION

If you choose to have an embalming performed, the decedent may be embalmed at a location other than this registered mortuary. The charge for embalming includes the use of the preparation room and sanitary care. When embalming is authorized using traditional chemicals or eco-conscious treatments, the charges for sanitary care and refrigeration will not apply.

Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial.

| | |
|---|---|
| *Retention and Care services from previous pages* | $4,370 |
| Embalming | $900 |
| Sanitary care (not needed if embalming is selected) | – $400 |
| Refrigeration (not needed if embalming is selected) | – $200 |
| The charge for these combined professional services typically will not exceed | $4,670 |

*N.J.A.C. 8:9-1.1 (a) The person or persons responsible for the burial or cremation or other lawful disposition of a dead human body shall not allow the same to remain unburied or uncremated in the State of New Jersey for a period longer than 48 hours unless embalmed by arterial and cavity injection or kept refrigerated at 45 degrees Fahrenheit or below or unless authorized by the Commissioner of Health and Senior Services under conditions prescribed by him or her during the existence of an emergency declared by the Governor.*
